V. Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-12	YES
	Claims		NO
Inventive step (IS)	Claims	1-12	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-12	YES
	Claims		NO

2. Citations and explanations

Claims 1 to 8 relate to a measuring system comprising a test brake lining which is characterised by a specific function (uptake of water). Claims 9 to 12 relate to a use of the device. The description indicates various ways and means of making the brake lining hygroscopic.

According to page 4, line 9 ff., hygroscopicity can be achieved by a substantially higher proportion of binders than that used in the prior art without the need for mechanical treatment in order to obtain a porous body. Further ways and means are indicated on page 4, line 32 ff. and page 5, lines 12 to 28, of the description.

The prior art cited in the search report does not indicate or suggest either the claimed device, which is clearly defined by means of its readily understandable function, or use thereof.
